

Directions for going into Milan via Lampugnano Park-and-Ride

To avoid driving in the city, and to avoid having to pay the congestion charge now operating in the central zone ("Area C di Milano"), we recommend that you use the "Park and Ride" facilities at Lampugnano Metro station.

Get on to the A8 Motorway towards Milan, either:

- by getting on the A26 (which leads to the A8) at **Borgomanero** (drive south on the SR229 past Gozzano and Borgomanero), or
- by getting on the A26 at the **Arona** entrance on the SR142 road.

Keep going on the A8 towards Milan, going through two toll barriers and ignoring all the various turnings. If you go during the morning rush hour (best not to) remain alert at all times as the busy commuter traffic can sometimes stop suddenly.

After the second toll barrier, where the motorway becomes 4 lanes, stay on the right hand side and continue into the centre of Milan. The next few exits are close together...

Take the first exit **after** "Viale Certosa".

Your exit is marked "**fieramilanocity**", but this exit **immediately** splits, at which point you bear left following the "**Lampugnano**" and blue "**P**" (parking) signs.

After 200 metres bear off right into Lampugnano parking.

You pay for the parking when you later come to collect your car, at the automated cash machine marked 'Cassa'.

Once parked, follow the red "M" signs towards the Metro. You can buy Metro tickets from the newsagent (around €1 for over an hour on any number of trains as long as you don't exit from the Metro). **Enter these in the electronic barriers, which automatically date stamps them.**

You are just a few stops from the centre of Milan ...

Happy sightseeing / shopping / people watching.....!
